

Pedagogical Games for the Social Sciences and Beyond

Presented by: Dr. Vidya Nadkarni, Professor of Political Science and Dr. Emily Edmonds-Poli, Associate Professor of Political Science

**Tuesday, November 5th, 2013
12:15 to 2:15 p.m. in KIPJ-I**

Are you looking for new and interactive ways to teach students important analytical concepts? This workshop provides some ideas for using pedagogical games to illustrate concepts such as how structure (social, political, economic, environmental) and capabilities (wealth, power, resources) shape action; and how cultural values and circumstances affect identity and rational decision-making. We will introduce and play the games and discuss how they can help create an experiential framework that encourages students to contemplate how the world works.

You may register one of three ways: either by (1) contacting Johnny Bobé II at (619) 260-7402; (2) by emailing cee@sandiego.edu; or (3) online at www.sandiego.edu/cee
