Experiential Education Ropes Course Leadership Programs

For the past twenty years I have been involved in conducting and teaching through adventure-based challenge ropes and teambuilding programs with thousands of youth. The main purpose is promoting higher education and the development of leadership skills, primarily with high school migrant students and other special programs throughout California. The following lists a sample programs from the past three years. Due to time constraints I only conduct two-three per year. I integrate adventure based-education in the physical education course I teach and other curriculum methods courses as well. The following are only but a few examples of leadership/teambuilding programs I have conducted the past twenty years.

August 2006: Adventure Based Counseling. University of San Diego CS3-Masters Counseling Program. San Diego, California.

August 2005: Enhancing Leadership Skills Through a Ropes Challenge and Adventure Program. San Joaquin County Foster Program. Sonora, California.
